SELECTIVE ELIGIBILITY TEST (S.E.T.)

PRACTICE TEST 14

Mathematics

45 minutes

Instructions:

- This test contains 50 questions.
- For each question, choose the correct answer and then mark its letter on the answer sheet.

Your time will start when you turn over the page.

Q1. How many seconds make up 3 hours?

A 360
B 180
C 10 800
D 16 000
E 980

Q2. What is the value of 2222 ÷ 11?

A 202
B 222
C 201
D 102
E 22

Q3. If the answer to 37 × 246 is 9102, what is the answer to 0.37 × 24.6?

A 0.9102
B 910.2
C 91.02
D 9.102
E 0.09102

Q4. Rachel went to the museum.

She stayed there for 6 hours and 20 minutes and left at 17:05.

At what time did Rachel arrive at the museum?

A 11:05

B 11:15

C 09:45

D 10:55

E 10:45

Q5. These shapes follow a pattern:

What is the rule for the next shape in this pattern?

A Rotate the shape 90° clockwise.

B Rotate the shape 45° anticlockwise.

C Rotate the shape 45° clockwise.

D Rotate the shape 90° anticlockwise.

E Rotate the shape 60° clockwise.

Q6. Isha wanted to add 479 but, by mistake, she subtracted 479 instead.
Her answer was 210.
What should her answer have been?

A 1084
B 1168
C 988
D 1021
E 864

Q7. Rupa thinks of a 3D shape.
The shape has 5 faces and 8 edges.
Which of the following could be Rupa's shape?

A triangular prism
B cuboid
C pentagonal prism
D tetrahedron
E square-based pyramid

Q8. If 400 sheets of paper weigh 1 kg altogether, what is the weight of one sheet of paper?

A 25 g

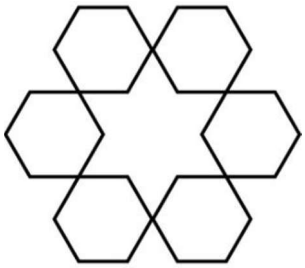

B 0.4 g

C 2.5 g

D 0.04 g

E 4 g

Q9. Six identical hexagons form the following shape:

If the perimeter of each hexagon is 18 cm, what is the length of the outer perimeter of the shape?

A 84 cm

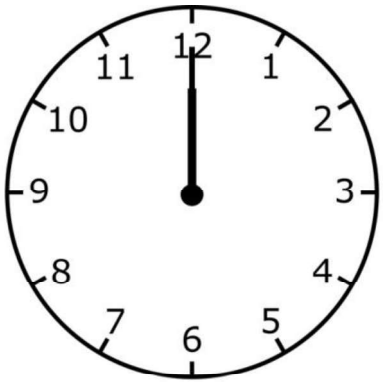

B 72 cm

C 60 cm

D 66 cm

E 54 cm

Q10. At 12 noon, the minute hand of a clock is directly over the hour hand.

During which of the following periods of time does the minute hand pass directly over the hour hand exactly twice?

A 20:00 to 21:30

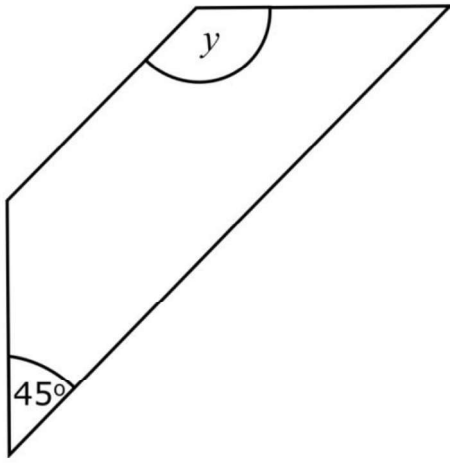

B 18:00 to 19:30

C 14:00 to 15:30

D 17:00 to 18:30

E 10:00 to 11:30

Q11. The shape below is a trapezium with one line of symmetry.

What is the size of angle y?

A 135°

B 145°

C 90°

D 125°

E 105°

Q12. How many more square numbers from 0–200 are there than cube numbers?

A 11

B 8

C 10

D 9

E 12

Q13. On Monday, 36 children are absent from a school.

This is 4% of the total number of pupils.

How many pupils would be at the school if there were no absentees?

A 1080

B 900

C 820

D 760

E 1000

Q14. Greta has 45 biscuits.

Each biscuit weighs 22 g.

What is the total weight of the biscuits?

A 9.08 kg

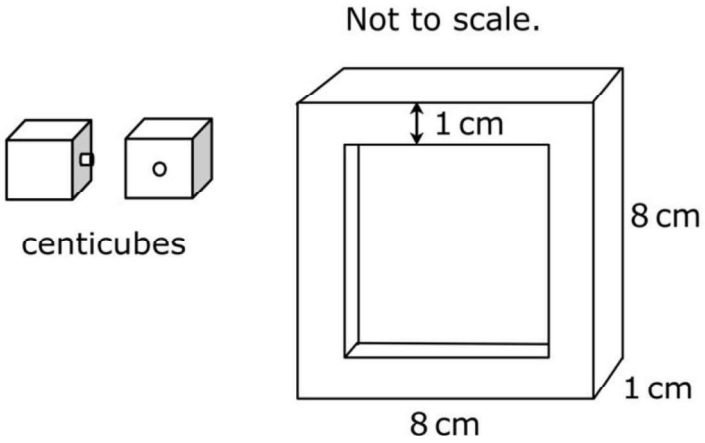

B 0.95 kg

C 980 g

D 0.99 kg

E 98 g

Q15. Centicubes are cubes with a side length of 1 cm, which can be joined together.

Mani joins a number of centicubes together to make a frame.

The frame is 1 cm wide all the way round and has external dimensions of 1 cm × 8 cm × 8 cm.

How many centicubes does Mani use to make the frame?

A 32

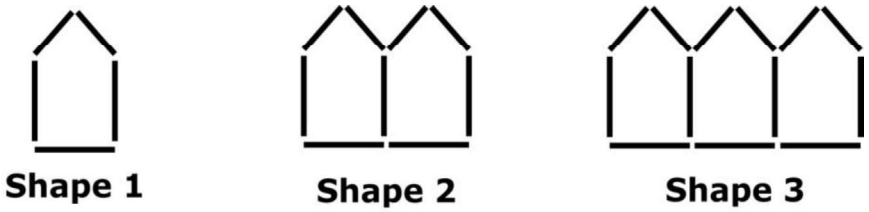

B 30

C 28

D 64

E 31

Q16. The diagram shows the first three shapes in a sequence.

The shapes are made from different matchsticks of different lengths.

How many matchsticks are needed to make Shape 8?

A 28

B 30

C 31

D 29

E 33

Q17. Finding a square root is the opposite of squaring a number.

For example, $12^2 = 144$, and the positive square root of 144 = 12.

The sign for a square root is $\sqrt{\ }$, so $\sqrt{144} = 12$.

What is the value of $\sqrt{x + y}$, where $x = 2$ and $y = 7$?

A 9

B $\sqrt{2} + \sqrt{7}$

C 3

D 4

E 6

Q18. Lea lists even numbers and odd numbers in separate tables.

The first few columns and rows of each table are shown below.

ODD	Column 1	Column 2	Column 3	Column 4
Row 1	1	3	5	7
Row 2	9	11	13	15
Row 3	17	19	…	…
Row 4	…	…	…	…

EVEN	Column 1	Column 2	Column 3	Column 4
Row 1	2	4	6	8
Row 2	10	12	14	16
Row 3	18	20	…	…
Row 4	…	…	…	…

What will be the difference between the odd number in Column 2, Row 7 and the even number in Column 3, Row 7?

A 5

B 3

C 1

D 2

E 4

Q19. Arya's baby brother is exactly three weeks old.

How many hours is this, to the nearest 10 hours?

A 325

B 480

C 230

D 500

E 190

Q20. Some gymnasts create a tower that is four people high, as shown.

How many gymnasts would be required to create a tower that is 6 people high?

A 21

B 20

C 19

D 18

E 23

Q21. What number needs to go in the empty box to make the statement correct?

$$\frac{17 + 3}{\square} = 2.5 \times 2$$

A 8

B 5

C 10

D 6

E 4

Q22. Mrs Kleen can tidy a room 12 times faster than it takes her children to create the mess.

If Mrs Kleen's children play for 3 hours and inevitably make a mess, how long does it take Mrs Kleen to tidy up?

A 10 minutes

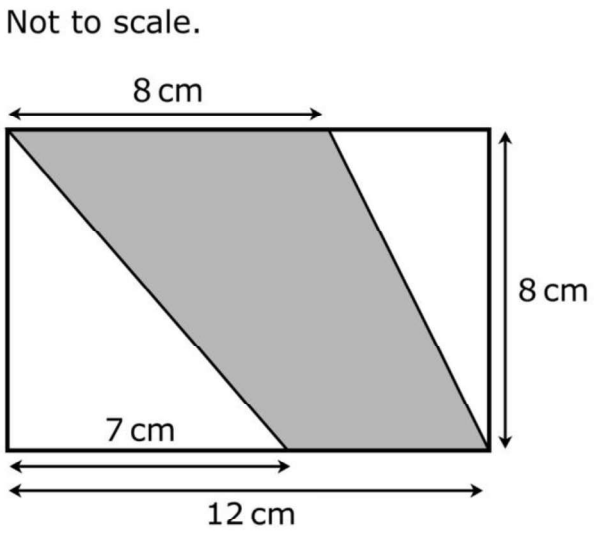

B 12 minutes

C 20 minutes

D 15 minutes

E 25 minutes

Q23. A rectangle that measures 8 cm × 12 cm has two white triangles placed at the ends, as shown.

What is the area of the shaded section of the rectangle?

A 48 cm²

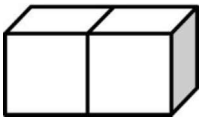

B 52 cm²

C 44 cm²

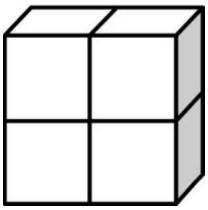

D 40 cm²

E 50 cm²

Q24. When two cubes are stuck together, a total of 10 individual faces can be counted.

How many faces can be counted when four cubes are stuck together as shown?

A 14

B 12

C 16

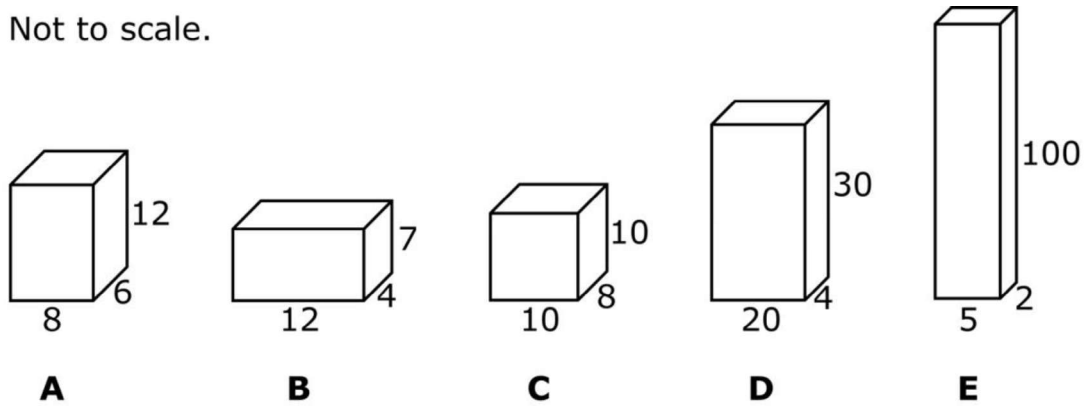

D 15

E 13

Q25. 1 litre of water will exactly fill a container that measures 1000 cm^3.

Look at the containers below.

All measurements are in cm.

Which one of the containers will contain 1 litre of water when full?

A A

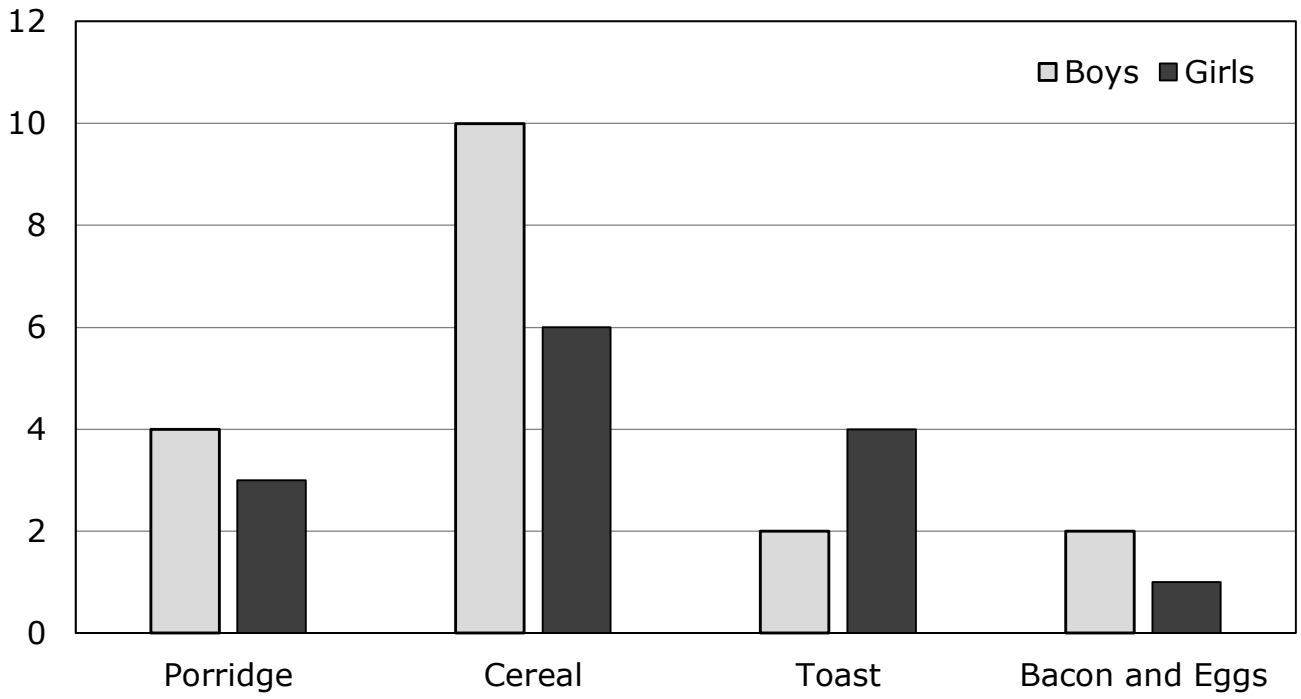

B B

C C

D D

E E

The graph shows what the pupils in Year 6 had for breakfast on Monday.

The graph relates to questions 26 and 27.

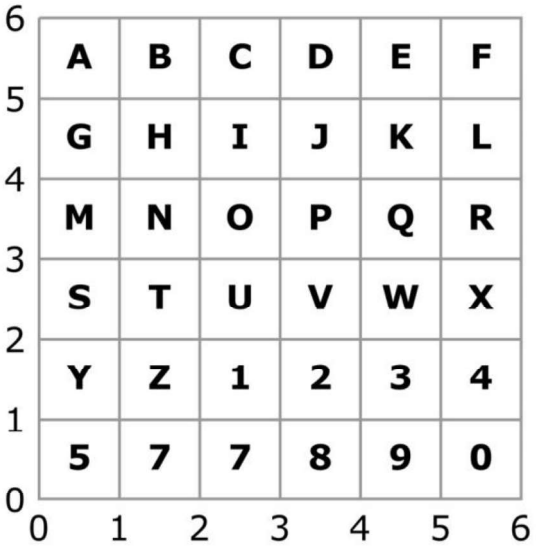

Q26. How many children are there in Year 6?

A 29
B 28
C 31
D 32
E 30

Q27. How many more boys ate cereal or porridge than girls?

A 3
B 7
C 6
D 4
E 5

Rina invents a code system:

To communicate using Rina's code, you state the coordinates of the south-west corner of the square that the required letter or number sits in.

For example, to give the letter P you state the coordinates (3, 3).

This code system is used for questions 28–30.

Q28. Which word is spelt out by the code (1, 2) (4, 5) (0, 5)?

A TEA

B TAN

C TOW

D TAG

E TEN

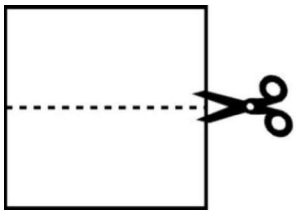

Q29. What is the correct code for CUAT4?

A (5, 2) (2, 1) (1, 5) (0, 2) (5, 1)
B (1, 5) (1, 2) (5, 0) (1, 2) (1, 5)
C (3, 5) (2, 1) (0, 5) (2, 0) (4, 1)
D (2, 5) (2, 2) (0, 5) (1, 2) (5, 1)
E (5, 2) (2, 2) (5, 0) (2, 0) (1, 4)

Q30. Which pair of coordinates completes the following code?
(4, 1) (1, 2) (2, 4) (0, 3) (4, 5) (0, 2) (3, 0) (4, 5) (4, 3) (2, 2) (0, 5) (5, 4) (0, 2) (3, 1)

A (2, 1)
B (1, 0)
C (5, 1)
D (4, 1)
E (3, 0)

Q31. A square has an area of 64 cm².

The square is cut in half and then the rectangles put together as shown.

What is the perimeter of the new shape?

A 40 cm

B 50 cm

C 54 cm

D 32 cm

E 48 cm

Questions 32 and 33 relate to the following information:

A city bank has 180 workers, three-quarters of whom are male.

All of the workers either walk to work or take a train.

Of the workers that walk to work, one-fifth are female.

Five-ninths of all the male workers take a train to work.

Q32. How many male workers walk to work?

A 50

B 72

C 64

D 60

E Not enough information is given.

Q33. How many female workers take a train to work?

A 30

B 20

C 42

D 36

E Not enough information is given.

The mod (modulo) operation gives the remainder after one number is divided by another.

For example, 10 mod 3 = 1, because 1 is the remainder when 10 is divided by 3.

Therefore, 4 mod 3 = 1, 7 mod 3 = 1 and 10 mod 3 = 1.

This information relates to questions 34–37.

Q34. What is the value of 100 mod 7?

A 4

B 3

C 2

D 5

E 1

Q35. Which one of the following has the same value as 459 mod 9?

A 541 mod 2

B 630 mod 6

C 901 mod 3

D 342 mod 5

E 238 mod 10

Q36. Which one of the following has a different value to the others?

A 58 mod 7

B 101 mod 9

C 410 mod 8

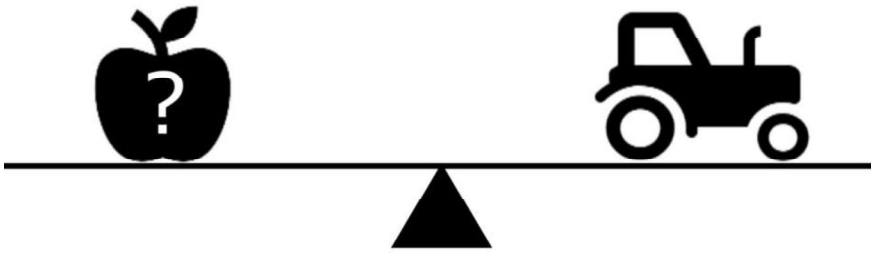

D 462 mod 10

E 321 mod 5

Q37. What is the difference between 160 mod 12 and 80 mod 6?

A 0
B 4
C 3
D 2
E 1

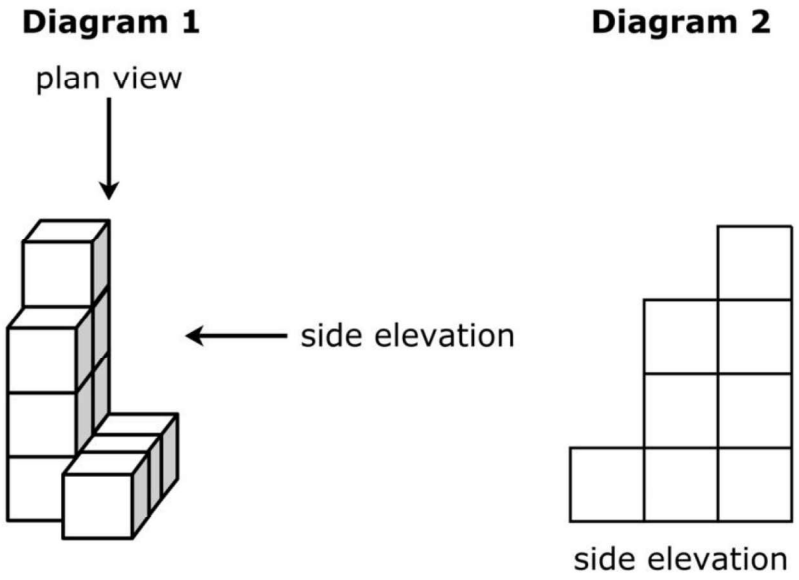

Q38. Approximately how many normal apples would balance a tractor?

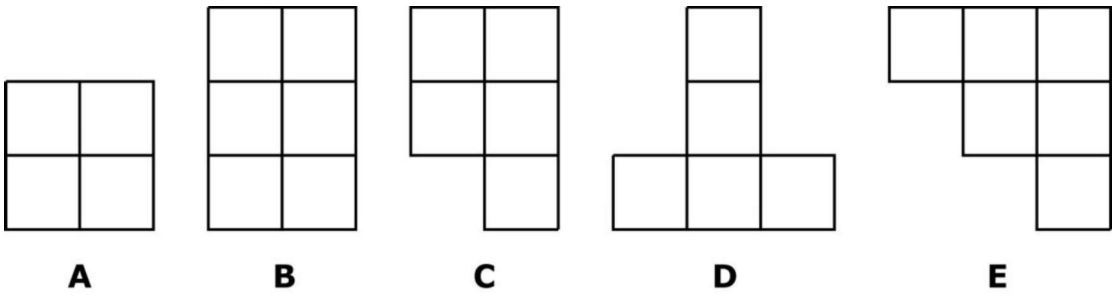

A 35 000
B 50
C 1 000 000
D 900
E 2200

Q39. Diagram 1 shows a shape made out of identical cubes.

Diagram 2 shows the side elevation of the shape, as viewed from the right side.

Which figure shows the correct plan view of the shape, when viewed from above?

A A

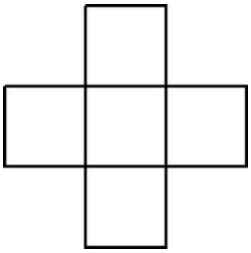

B B

C C

D D

E E

Q40. The numbers 2, 5, 8, 11 and 14 are placed in the cross below so that the sum of the three numbers in the horizontal direction is equal to the sum of the three numbers in the vertical direction.

Which numbers could go in the central square?

A 5 or 14

B 5 or 11

C All of them.

D None of them.

E 2, 8 or 14

Q41. A jug that is full of milk weighs 2.5 kg.

After one-quarter of the milk is poured out, the jug and remaining milk weigh 1.9 kg.

What does the empty jug weigh?

A 10 g

B 1 kg

C 1.1 kg

D 100 g

E 0.6 kg

Q42. Which of the following is **not** equivalent to $3a + 4b = 7$?

A $4b + 3a = 7$

B $3a = 7 - 4b$

C $3a + 4b + 7 = 0$

D $4b = 7 - 3a$

E $6a + 8b = 14$

Q43. A car travels 8 km every 10 minutes.

Which one of the calculations below gives the distance that the car will travel in 1.5 hours?

A 1.5×8

B $1.5 \times 60 \div 10 \times 8$

C $10 \times 8 \times 1.5$

D $10 \times 8 \div 1.5$

E $1.5 \times 60 \div 8$

The first three terms in a number pattern are as follows:

Term 1: 1 × 2 × 3 = **6**

Term 2: 2 × 3 × 4 = **24**

Term 3: 3 × 4 × 5 = **60**

Questions 44 and 45 relate to this number pattern.

Q44. Which term equals 1320?

A Term 10

B Term 11

C Term 13

D Term 19

E Term 12

Q45. How many of the first 10 terms have a result that is a multiple of 10?

A 5

B 7

C 4

D 6

E 8

Q46. Look at the list of numbers below:

2, 3, 6, 7, 8, 10

Which number should be taken out of the list so that the remaining numbers have a mean value of 6?

A 2

B 3

C 6

D 7

E 8

Q47. Ricky and Tarun each have a different number of marbles.

Ricky gives Tarun 10% of his marbles and then both boys have the same number of marbles.

If Tarun started with 32 marbles, how many marbles did Ricky start with?

A 42

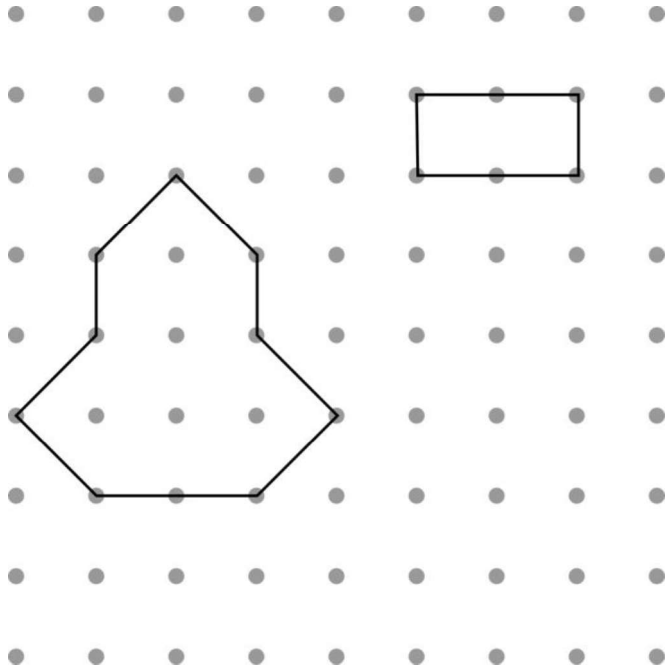

B 40

C 36

D 50

E 60

Q48. If the area of the rectangle is 2 square units, what is the area of the nonagon?

A 12 square units

B 10 square units

C 9.5 square units

D 8.5 square units

E 9 square units

Q49. The time in Tokyo is 13 hours ahead of New York.

The time in London is 5 hours ahead of New York.

A virtual meeting takes place between colleagues in London and Tokyo.

If the meeting starts in London at 09:45, what is the local time in Tokyo?

A 01:45

B 18:45

C 17:45

D 16:45

E 02:45

Q50. Jamil lists all the numbers from 1–1000 inclusive.

How many digits does he write down in total?

A 3000

B 2000

C 2893

D 2500

E 2786

SELECTIVE ELIGIBILITY TEST (S.E.T.)
PRACTICE TEST 14

English
50 minutes

Instructions:

- This test contains 34 questions, which are split over 4 sections
- You are advised to spend the time suggested below on each section:
  Section A: Spelling – 5 minutes
  Section B: Text 1 – 25 minutes
  Section C: Text 2 – 10 minutes
  Section D: Comparison of Texts 1 & 2 – 10 minutes
- These timings are just recommendations – you are allowed to spend as much of the given time as you like on each section, and you may return to questions at any time during the test.
- Read the instructions for each section carefully.
- Mark all your responses on the separate answer sheet provided.

Your time will start when you turn over the page.

Section A

Which of these is the correct spelling?

1.
A Itchie
B Itchey
C Ittchie
D Ittchey
E Itchy

2.
A Telescope
B Teliscope
C Telascope
D Telliscope
E Tellascope

3.
A Platinuum
B Platinam
C Plattinam
D Plattinum
E Platinum

4.
A Immplawsible
B Implausable
C Imploresable
D Implausible
E Implorsible

5.

A Monnotonee

B Monnotoney

C Monoterny

D Monotony

E Monoteny

6.

A Decietfull

B Deceetfull

C Deceitful

D Decietful

E Deceetful

Section B

The extract below is from *The Secret Garden,* by Francis Hodgson Burnett.

Read the extract carefully and then answer the questions that follow.

For two or three minutes he stood looking round him, while Mary watched him, and then he began to walk about softly, even more lightly than Mary had walked the first time she had found herself inside the four walls. His eyes seemed to be taking in everything—the grey trees with the grey creepers climbing over them and hanging from their branches, the tangle on the walls and among the grass, the evergreen alcoves with the stone seats and tall flower urns standing in them.

"I never thought I'd see this place," he said at last, in a whisper.

"Did you know about it?" asked Mary.

She had spoken aloud and he made a sign to her.

"We must talk low," he said, "or someone'll hear us an' wonder what's to do in here."

"Oh! I forgot!" said Mary, feeling frightened and putting her hand quickly against her mouth. "Did you know about the garden?" she asked again when she had recovered herself.

Dickon nodded.

"Martha told me there was one as no one ever went inside," he answered. "Us used to wonder what it was like."

He stopped and looked round at the lovely grey tangle about him, and his round eyes looked queerly happy.

"Eh! the nests as'll be here come springtime," he said. "It'd be th' safest nestin' place in England. No one never comin' near an' tangles o' trees an' roses to build in. I wonder all th' birds on th' moor don't build here."

Mistress Mary put her hand on his arm again without knowing it.

"Will there be roses?" she whispered. "Can you tell? I thought perhaps they were all dead."

"Eh! No! Not them—not all of 'em!" he answered. "Look here!"

He stepped over to the nearest tree—an old, old one with grey lichen all over its bark, but upholding a curtain of tangled sprays and branches. He took a thick knife out of his pocket and opened one of its blades.

"There's lots o' dead wood as ought to be cut out," he said. "An' there's a lot o' old wood, but it made some new last year. This here's a new bit," and he touched a shoot which looked brownish green instead of hard, dry grey.

Mary touched it herself in an eager, reverent way.

"That one?" she said. "Is that one quite alive — quite?"

Dickon curved his wide smiling mouth.

"It's as wick as you or me," he said; and Mary remembered that Martha had told her that "wick" meant "alive" or "lively."

"I'm glad it's wick!" she cried out in her whisper. "I want them all to be wick. Let us go round the garden and count how many wick ones there are."

She quite panted with eagerness, and Dickon was as eager as she was. They went from tree to tree and from bush to bush. Dickon carried his knife in his hand and showed her things which she thought wonderful.

"They've run wild," he said, "but th' strongest ones has fair thrived on it. The delicatest ones has died out, but th' others has growed an' growed, an' spread an' spread, till they's a wonder. See here!" and he pulled down a thick grey, dry-looking branch. "A body might think this was dead wood, but I don't believe it is—down to th' root. I'll cut it low down an' see."

He knelt and with his knife cut the lifeless-looking branch through, not far above the earth.

"There!" he said exultantly. "I told thee so. There's green in that wood yet. Look at it."

Mary was down on her knees before he spoke, gazing with all her might.

"When it looks a bit greenish an' juicy like that, it's wick," he explained. "When th' inside is dry an' breaks easy, like this here piece I've cut off, it's done for. There's a big root here as all this live wood sprung out of, an' if th' old wood's cut off an' it's dug round, and took care of there'll be—" he stopped and lifted his face to look up at the climbing and hanging sprays above him—"there'll be a fountain o' roses here this summer."

They went from bush to bush and from tree to tree. He was very strong and clever with his knife and knew how to cut the dry and dead wood away, and could tell when an unpromising bough or twig had still green life in it. In the course of half an hour Mary thought she could tell too, and when he cut through a lifeless-looking branch she would cry out joyfully under her breath when she caught sight of the least shade of moist green. The spade, and hoe, and fork were very useful. He showed her how to use the fork while he dug about roots with the spade and stirred the earth and let the air in.

They were working industriously round one of the biggest standard roses when he caught sight of something which made him utter an exclamation of surprise.

"Why!" he cried, pointing to the grass a few feet away. "Who did that there?"

It was one of Mary's own little clearings round the pale green points.

"I did it," said Mary.

"Why, I thought tha' didn't know nothin' about gardenin'," he exclaimed.

"I don't," she answered, "but they were so little, and the grass was so thick and strong, and they looked as if they had no room to breathe. So I made a place for them. I don't even know what they are."

Dickon went and knelt down by them, smiling his wide smile.

"Tha' was right," he said. "A gardener couldn't have told thee better. They'll grow now like Jack's bean-stalk. They're crocuses an' snowdrops, an' these here is narcissuses," turning to another patch, "an here's daffydowndillys. Eh! they will be a sight."

He ran from one clearing to another.

7. What does 'For two or three minutes he stood looking round him' (line 1) tell us?

Select the **most accurate** explanation.

A Dickon needed a chance to catch his breath.

B Dickon was interested in his surroundings.

C Dickon had no idea where he was.

D Dickon took a long time to process information.

E Dickon was not an active child.

8. Why did Dickon talk 'in a whisper' (line 7)?

Select the **most accurate** explanation.

A He did not want to disturb any wildlife in the garden.

B They were not supposed to be in the garden.

C Mary did not like loud voices.

D He had a sore throat.

E Mary had asked him to.

9. Look carefully at lines 1–14. Which of these is NOT correct?

Select **one** answer.

A Mary had been inside the garden before.

B Dickon had never been inside the garden before.

C There were flower urns in the stone seats.

D There were stone seats in the alcoves.

E Mary forgot to whisper.

10. Select the **TWO** words that are synonyms of 'urns' in line 6.

A Roots

B Stalks

C Vases

D Stems

E Containers

11. Which of the following flowers was Dickon expecting to bloom in the garden at some point in the future?

Select all that are correct.

A Tulips

B Roses

C Crocuses

D Snowdrops

E Narcissuses

12. According to Dickon, why would the garden be a good place for birds to nest?

Select all that are correct.

A There were trees for them to build nests in.

B There were rose plants for them to build nests in.

C Mary would be able to keep an eye on the nests.

D There were plenty of twigs on the ground for them to build nests with.

E The birds would not be disturbed by people coming and going.

13. Select the **TWO** most accurate words to describe Dickon.

A Impudent

B Flamboyant

C Kind

D Practical

E Impatient

14. Which of the following colours are mentioned in the extract?

Select all that are correct.

A Green

B Red

C Yellow

D Black

E Grey

15. Select the **TWO** words that are synonyms of 'reverent' in line 33.

A Enthusiastic

B Respectful

C Reverential

D Nervous

E Anxious

16. Look carefully at lines 20–21. Which of the following letters are represented by apostrophes in these lines?

Select all that are correct.

A D

B E

C F

D G

E H

17. What did Dickon do in the garden?

Select all that are correct.

A He aerated the soil using a spade.

B He used the spade to dig holes to plant flowers.

C He used a hoe to rake leaves.

D He cut away dead wood with a knife.

E He used a fork to dig holes.

18. Select the **TWO** most accurate words to describe how Mary felt in the garden.

A Fatigued

B Excited

C Unnerved

D Content

E Subdued

19. Look carefully at lines 46–53. Which of these statements is NOT correct?

Select **one** answer.

A There is a metaphor in these lines.

B The 'lifeless-looking branch' in line 46 was not completely dead.

C Moistness in wood indicates life.

D There were climbing roses in the garden.

E Mary had no idea how to identify wood that was not dead.

20. What did Dickon think of Mary's clearings?

Select the **most accurate** explanation.

A He thought they were unnecessary.

B He thought they showed that she knew nothing about gardening.

C He thought that they would help the trees to grow.

D He thought they were fantastic and would help the flowers grow.

E He thought they made the garden look attractive.

21. Select the **TWO** most accurate words to describe the relationship between Dickon and Mary.

A Fractious

B Warm

C Respectful

D Uncomfortable

E Complex

22. Select the **TWO** words that are antonyms of 'industriously' in line 61.

A Lazily

B Busily

C Sadly

D Indolently

E Morosely

23. What type of word is 'did' in line 65?

Select all that are correct.

A A homophone

B A homograph

C A palindrome

D A noun

E A verb

Section C

The poem below is *Daffodils,* by William Wordsworth.

Read the poem carefully and then answer the questions that follow.

Daffodils

I wander'd lonely as a cloud
That floats on high o'er vales and hills,
When all at once I saw a crowd,
A host, of golden daffodils;
Beside the lake, beneath the trees,
Fluttering and dancing in the breeze.

Continuous as the stars that shine
And twinkle on the Milky Way,
They stretch'd in never-ending line
Along the margin of a bay:
Ten thousand saw I at a glance,
Tossing their heads in sprightly dance.

The waves beside them danced, but they
Outdid the sparkling waves in glee:
A poet could not but be gay,
In such a jocund company:
I gazed—and gazed—but little thought
What wealth the show to me had brought:

For oft, when on my couch I lie
In vacant or in pensive mood,
They flash upon that inward eye
Which is the bliss of solitude;
And then my heart with pleasure fills,
And dances with the daffodils.

24. What is the narrator doing in the first stanza?

Select the **most accurate** explanation.

A Sitting down and thinking

B Looking at a solitary cloud in the sky

C Taking a walk by himself

D Going to a lake to meet a friend

E Floating in a hot air balloon

25. Which of the following words are used to refer to the daffodils?

Select all that are correct.

A Vales

B Crowd

C Hills

D Host

E Cloud

26. Which of the following language techniques are used in the second stanza?

Select all that are correct.

A Hyperbole

B Personification

C A simile

D Onomatopoeia

E Irony

27. Select the **TWO** words that are themes of the poem.

A Anger

B Memory

C Friendship

D Nature

E Revenge

28. What does the repetition in the third stanza ('I gazed — and gazed') emphasise?

Select the **most accurate** explanation.

A How bored the narrator was

B How lonely the narrator was

C How captivated the narrator was by the daffodils

D How much the narrator liked to be by water

E How the narrator was lost in a daydream

29. Look carefully at the third and fourth stanzas. Which of these statements is NOT correct?

Select **one** answer.

A The rhyme scheme is ABABCC.

B Remembering the daffodils makes the narrator happy.

C The narrator often remembers the daffodils.

D The narrator took a picture of the daffodils.

E The sight of the daffodils cheered the narrator up.

30. Select the **TWO** words that are synonyms of 'pensive' in the fourth stanza.

A Reflective

B Miserable

C Gloomy

D Cheerful

E Contemplative

Section D

Answer the following questions using BOTH the extract and the poem.

31. Think about the settings in the extract and the poem. Which of these statements are true about BOTH?

Select all that are correct.

A They are set in summer.

B They are predominantly or completely set outside.

C They are set in private gardens.

D They are set in the daytime.

E They are set near the sea.

32. Think about the extract and the poem. Which of these statements is NOT true?

Select **one** answer.

A Only the extract contains direct speech.

B They have different types of narrators.

C They both mention various types of flowers.

D Both use repetition of words for effect.

E The poem relies more on language techniques than the extract.

33. Nature is linked to wellbeing in people in both the extract and the poem.

Select the **TWO** quotes that best support this statement.

A 'A poet could not but be gay,
In such a jocund company:' (Poem, third stanza)

B 'She had spoken aloud and he made a sign to her.' (Extract, line 9)

C 'When all at once I saw a crowd,
A host, of golden daffodils;' (Poem, first stanza)

D 'she would cry out joyfully under her breath' (Extract, lines 57–58)

E 'The waves beside them danced, but they
Outdid the sparkling waves in glee:' (Poem, third stanza)

34. Select the **TWO** most accurate words to describe the tone of BOTH the extract and the poem.

A Pessimistic

B Optimistic

C Spooky

D Amusing

E Joyful

11+ S.E.T. Practice Test 14 – English – Answers

Marking Guidance

For each question, the maximum number of marks available is shown.

Where questions require multiple answers and use the rubric, '**Select all that are correct**', negative marking should also be applied, whereby 1 mark is deducted for each incorrect answer selected down to 0 marks (note that the number of marks per question cannot be negative).

For example:

If a question is worth 2 marks and requires options A, B and C to be selected:

Award 2 marks for A, B **and** C selected or 1 mark for any two correct answers selected.

Award 1 mark for A, B, C **and** D **or** E selected (2 marks – 1 incorrect = 1 mark).

Award 0 marks for A, B, C, D **and** E selected (2 marks – 2 incorrect = 0 marks).

Award 0 marks for A, B and E selected or equivalent (1 mark – 1 incorrect = 0 marks).

1.	E	[1 mark]
2.	A	[1 mark]
3.	E	[1 mark]
4.	D	[1 mark]
5.	D	[1 mark]
6.	C	[1 mark]
7.	B	[1 mark]
8.	B	[1 mark]
9.	C	[1 mark]
10.	C, E (both answers must be correct)	[1 mark]
11.	B, C, D, E	[3 marks]
12.	A, B, E	[2 marks]
13.	C, D (both answers must be correct)	[1 mark]
14.	A, E	[2 marks]
15.	B, C (both answers must be correct)	[1 mark]
16.	A, B, C, D	[3 marks]
17.	A, D	[2 marks]
18.	B, D (both answers must be correct)	[1 mark]
19.	E	[1 mark]

20.	D	[1 mark]
21.	B, C (both answers must be correct)	[1 mark]
22.	A, D (both answers must be correct)	[1 mark]
23.	C, E	[2 marks]
24.	C	[1 mark]
25.	B, D	[2 marks]
26.	A, B, C	[2 marks]
27.	B, D (both answers must be correct)	[1 mark]
28.	C	[1 mark]
29.	D	[1 mark]
30.	A, E (both answers must be correct)	[1 mark]
31.	B, D	[2 marks]
32.	C	[1 mark]
33.	A, D (both answers must be correct)	[1 mark]
34.	B, E (both answers must be correct)	[1 mark]

Total: **45 marks**
