SELECTIVE ELIGIBILITY TEST (S.E.T.)

PRACTICE TEST 16

Mathematics

45 minutes

Instructions:

- This test contains 50 questions.
- Rough working can be done on the paper or on a separate sheet.
- For each question, choose the correct answer and then mark its letter on the separate answer sheet provided.

Your time will start when you turn over the page.

Q1. What is $5 + 11 \times 2$?

A 32

B 36

C 27

D 29

E 23

Q2. What is $3^2 + 2^3$?

A 12

B 35

C 16

D 17

E 21

Q3. What is $101 - 112 + 14$?

A 3

B -2

C 2

D 4

E -3

Q4. How many thousandths are there in one-tenth?

A 10

B 100

C 1000

D 10000

E 1 million

Q5. Mr Au bought some gold for £12 000.

In the first year, the gold went up in value by 5%.

The following year, the gold fell in value by 5%.

What was the value of the gold at the end of the second year?

A £12 000

B £12 120

C £12 200

D £12 123

E £11 970

Q6. What fraction of a day is 45 minutes?

A $\frac{1}{36}$

B $\frac{2}{45}$

C $\frac{1}{32}$

D $\frac{1}{40}$

E $\frac{3}{65}$

Q7. The volume of a cube is 343 cm^3.

What is the area of one of its faces?

A 36 cm^2

B 25 cm^2

C 64 cm^2

D 49 cm^2

E 81 cm^2

Q8. 30% of a number, N, is 18.

What is the number, N?

A 72

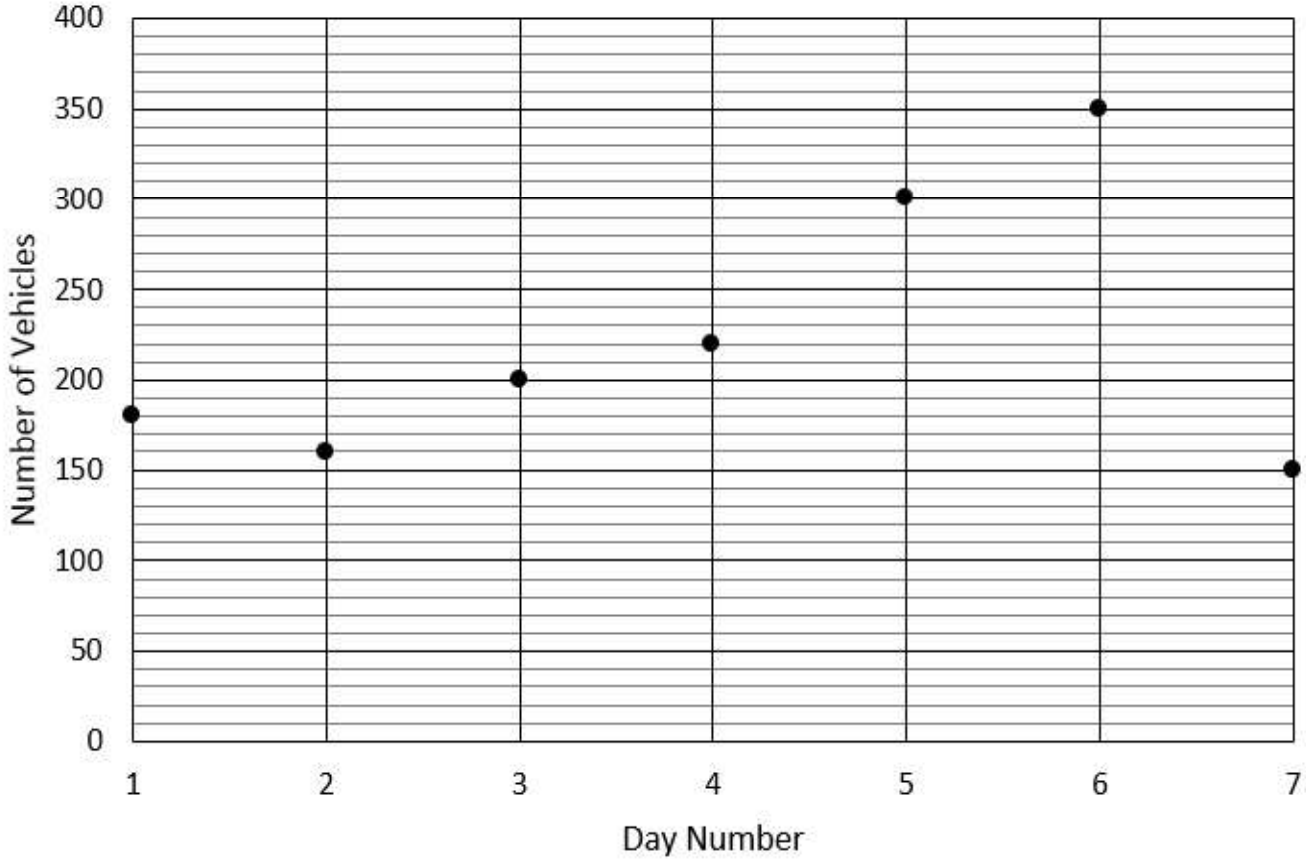

B 30

C 54

D 5.4

E 60

Q9. For one week, starting on Monday (Day 1), Stella counts the number of cars that pass her house from 16:00 to 17:00.

What conclusion can Stella draw from the data?

A More cars passed down her road on the whole of Sunday than on any other day.

B More cars passed down her road on the whole of Saturday than on any other day.

C Tuesday was the quietest day.

D 25% more cars passed from 16:00–17:00 on Wednesday compared to 16:00–17:00 on Tuesday.

E The median number of cars occurred on Thursday.

Q10. A train has 4 carriages.

Each carriage seats 80 passengers.

The 1st carriage is half full.

The 2nd carriage is 40% full.

The 3rd carriage is $\frac{3}{8}$ empty and the 4th carriage is $\frac{2}{5}$ empty.

How many passengers are on the train?

A 170

B 165

C 164

D 160

E 156

Q11. Mr Steam is selling coffee at an event.

The cups cost him 20 p each and the ingredients cost him 10 p per cup.

Mr Steam must pay £100 to have his stall at the event.

If Mr Steam starts to make a profit after selling 50 cups of coffee, how much is he charging per cup?

A £2

B £2.30

C £2.50

D £2.75

E £2.80

Q12. 40 tents need to be erected for a school fair.

It takes 3 helpers half an hour to put up one tent.

How many helpers will be required to put up all the tents if they have a 1-hour slot in which to set up?

A 30

B 40

C 50

D 60

E 80

Q13. A pencil weighs the same as 20 sheets of paper.

A rubber weighs the same as 30 sheets of paper.

How many pencils weigh the same as 6 rubbers?

A 4

B 40

C 9

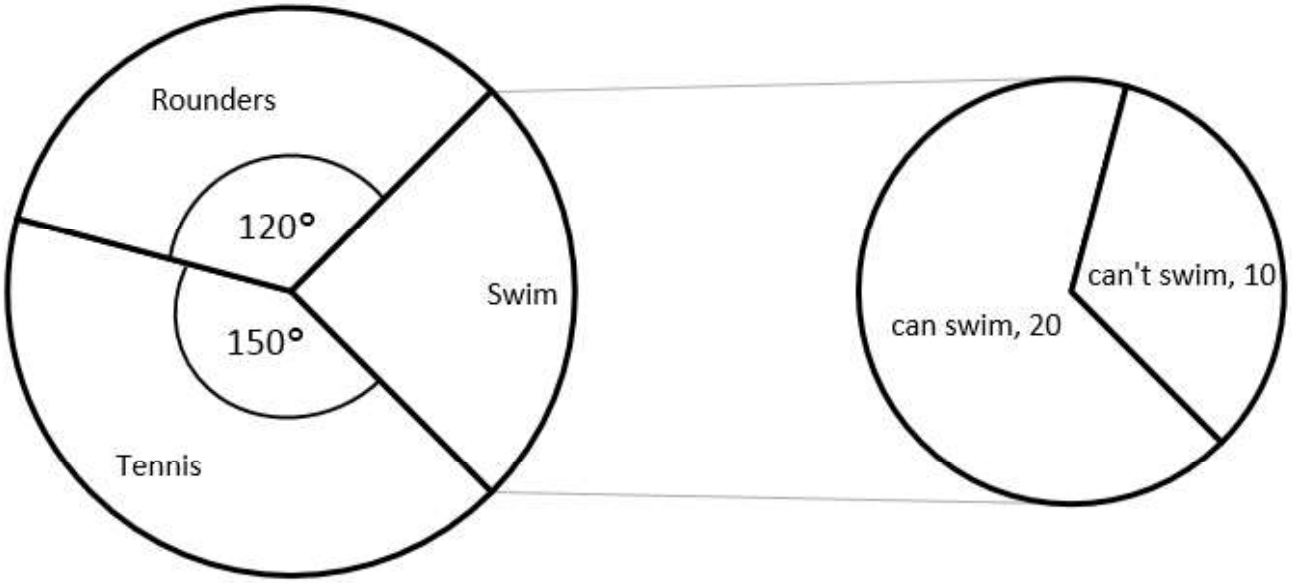

D 3

E 8

Q14. The pie chart shows the sports that the pupils at a school chose to do.

Swimmers were subdivided into those who could swim and those who could not.

10 were unable to swim and 20 could swim.

How many pupils chose tennis?

A 50

B 60

C 75

D 80

E 90

Q15. Mr Mentes earns £60 000 a year and he is paid monthly.

One-fifth of the money earned is taken off for tax.

How much money does Mr Mentes receive each month?

A £4200

B £4500

C £5000

D £4800

E £4000

Q16. The table shows the length of time for which some former prime ministers served.

William Petty	4th July 1782 to 26th March 1783
William Cavendish-Bentinck	2nd April 1783 to 18th December 1783
John Russell	29th October 1865 to 26th June 1866
Bonar Law	23rd October 1922 to 20th May 1923
Stanley Baldwin	22nd May 1923 to 22nd January 1924

Which of these prime ministers served the longest term?

A William Petty

B William Cavendish-Bentinck

C John Russell

D Bonar Law

E Stanley Baldwin

Q17. What is the first four-digit multiple of 21?

A 1001

B 1004

C 1008

D 1012

E 1020

Q18. What is 10% of one-fifth of one-quarter of a century?

A 2 years

B 6 months

C 8 months

D 1.5 years

E 1 year

Q19. Harriette is saving for a new phone.

The phone costs £180 and Harriette saves one-third of her pocket money each week.

It takes Harriette exactly 36 weeks to save the money for the phone.

How much pocket money does Harriette receive each week?

A £21

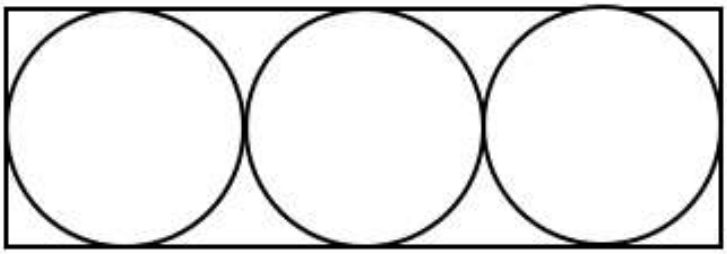

B £24

C £18

D £15

E £12

Q20. The circles each have a radius of 9 cm.

What is the area of the rectangle?

A 243 cm^2

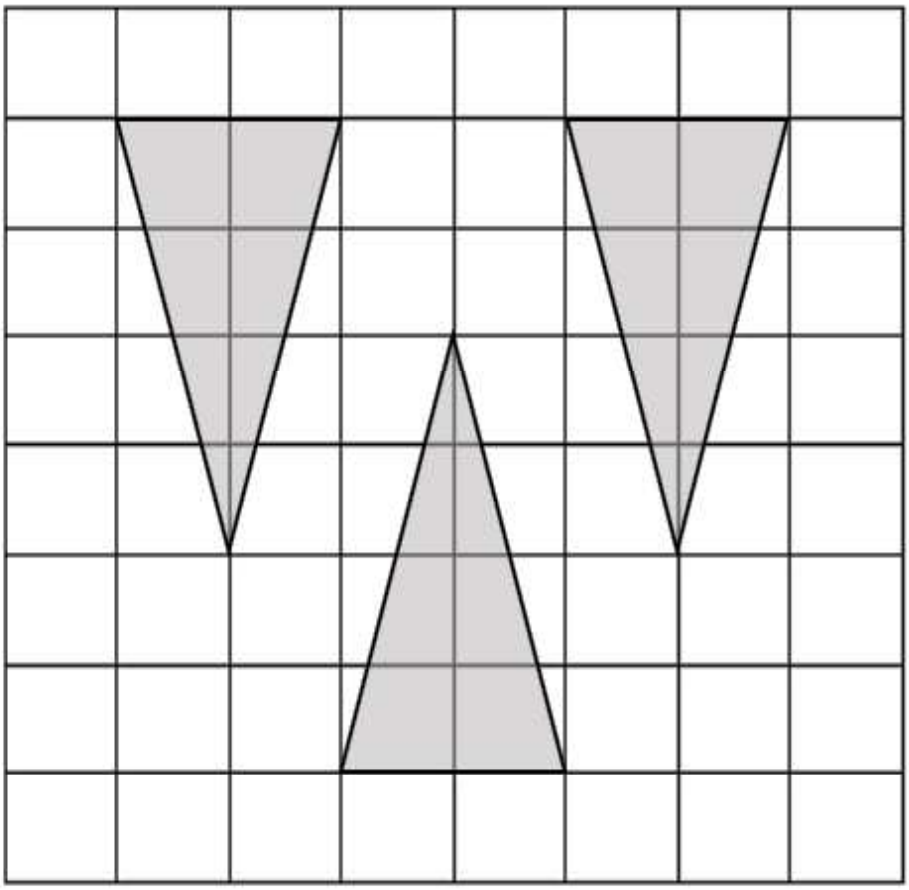

B 474 cm^2

C 648 cm^2

D 324 cm^2

E 972 cm^2

Q21. What is the ratio of shaded parts to unshaded parts in the diagram below?

A 3 : 13

B 6 : 30

C 3 : 16

D 2 : 11

E 1 : 12

Q22. In 2020, the fastest car travelled at 508 km/h.

Rounded to the nearest 10 m, how many metres per second is that equivalent to?

A 1560 m/s

B 150 m/s

C 140 m/s

D 20 m/s

E 90 m/s

Q23. Which number comes next in the sequence?

5, -10, 20, -40, 80, -160, ...

A 300

B -240

C -320

D 240

E 320

Q24. What is the nth term of the sequence?

-10, 20, -40, 80, -160, ...

A $2n^5$

B $5n$

C $-2 \times 5n$

D $5(-2)^n$

E $(5 \times -2)^n$

Q25. Two numbers, A and B, multiply together to make 288.

A ÷ B = 2

What is the value of the smaller number?

A 14

B 12

C 16

D 20

E 24

Q26. What is 0.04 × 0.75?

A 30

B 3

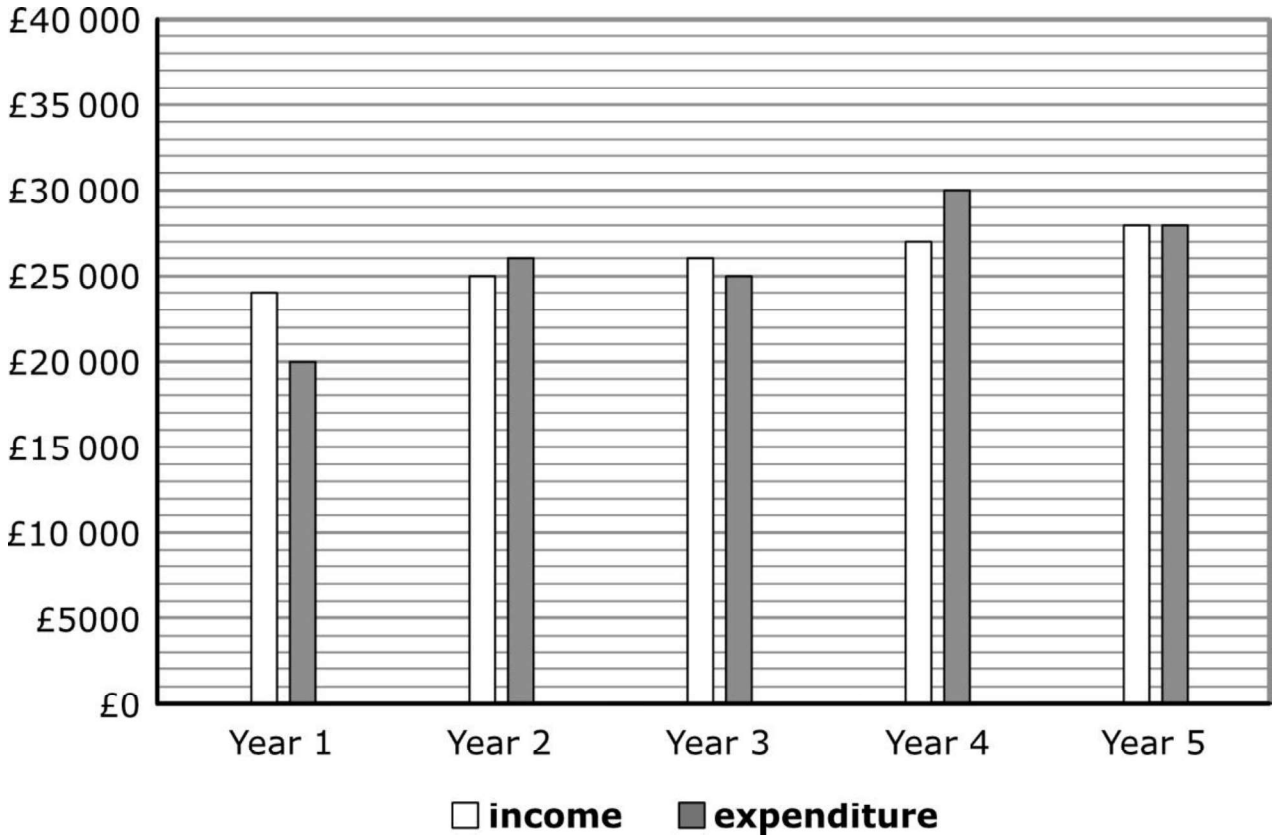

C 0.3

D 0.03

E 0.003

Q27. Mr Novice starts his job at the beginning of Year 1 with no money in his bank account.

The chart shows how much money Mr Novice has coming in and going out of his bank account during Years 1 to 5.

How much money does Mr Novice have in his bank account at the end of Year 5?

A £0

B £500

C £1000

D £1500

E £2000

Q28. Pooja has to package up 24 parcels for her employer.

The parcels each take 4 minutes to complete and they must all be ready by 16:30.

What is the latest time that Pooja should start the task?

A 15:24

B 14:58

C 15:06

D 14:54

E 14:44

Q29. $4\frac{1}{6} \times 2\frac{1}{5} =$

A $9\frac{1}{6}$

B $8\frac{3}{5}$

C $8\frac{1}{30}$

D $9\frac{1}{4}$

E $10\frac{1}{5}$

Q30. Mr Wood wants to cut a log into 5 equal pieces.

The log is 3 m in length.

It takes 2.5 minutes to make one complete cut through the log.

What is the fastest time that Mr Wood can have the 5 pieces ready, and how long will each piece be?

A 12.5 minutes and 60 mm

B 10 minutes and 60 cm

C 10 minutes and 60 mm

D 12.5 minutes and 60 cm

E 11 minutes and 60 cm

Q31. Which square number lies between 2501 and 2703?

A 2304

B 2620

C 2601

D 2791

E 2684

Q32. A 2 p coin weighs 7 g.

How much money do I have if I have 14 kg of 2 p coins?

A £400

B £4000

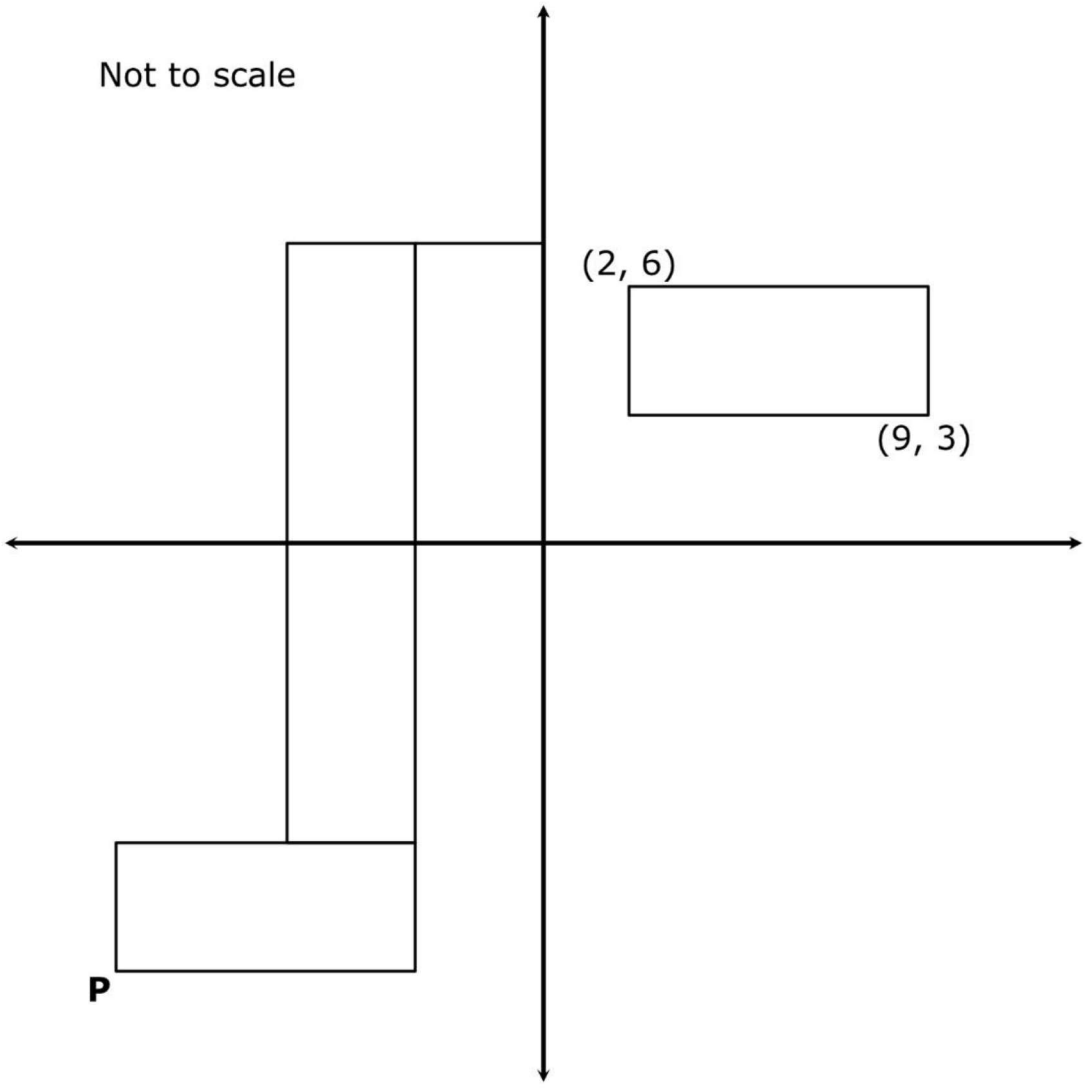

C £4

D £40

E 40 p

Q33. Five identical rectangles are shown on the axes.

What are the coordinates of point P?

A (-9, -10)

B (-10, -9)

C (-9, -9)

D (10, -9)

E (-10, -10)

Q34. 324 meals are ordered at the Gala Restaurant.

Two-thirds of the meals are vegetarian, and the rest are meat dishes.

Half of the vegetarian dishes are served cold, and one-third of the meat dishes are served cold.

What is the ratio of cold to hot dishes served?

A 3 : 5

B 1 : 2

C 2 : 3

D 5 : 6

E 4 : 5

Q35. The tally chart shows the number of credits awarded to a class.

Number of credits	Frequency
5	||
6	|||
7	𝍸 ||
8	||||
9	𝍸 |
10	||||
11	|||
12	|

What is the median number of credits awarded?

A 6

B 7

C 8

D 9

E 10

Q36. Lana thinks of a number.

First, she divides the number into 60 and then she subtracts that result from 30.

Lana then halves the new result and gets 13.

What was Lana's original number?

A 240

B 26

C 4

D 1

E 15

Q37. Tara says, "Multiplying my number by 5 is the same as adding 16 to it."

What is Tara's number?

A 2

B 3

C 4

D 5

E 6

Q38. N is a two-digit odd number that is divisible by 5.

N is less than 90.

If the digits in N are reversed, the new number is prime.

What number is N?

A 15

B 25

C 35

D 75

E 85

Q39. (-8, -23) and (14, 21) are two points that are joined by a straight line.

What are the coordinates of the midpoint of the line?

A (11, 22)

B (6, 1)

C (3, -1)

D (6, -1)

E (3, 1)

Q40. Riya adds together:

The 1-digit numbers that have the most factors + the 2-digit numbers less than 20 that have the least factors.

What is Riya's total?

A 74

B 61

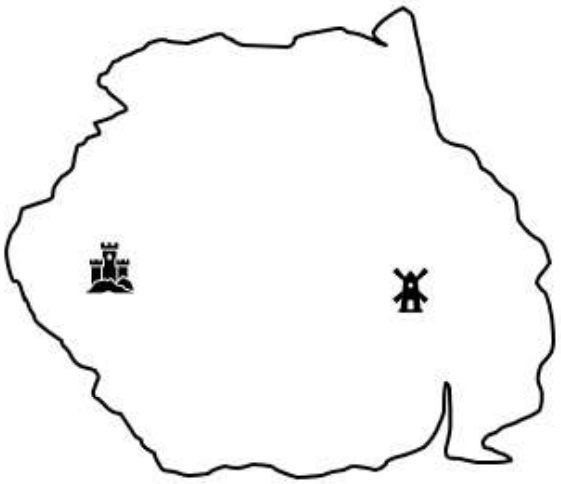

C 60

D 50

E 20

Q41. The map has a scale of 1:50 000

If the distance between the castle and windmill (marked on the map) is 8 km in real life, what is the distance between them on the map?

A 4 cm

B 16 cm

C 9 cm

D 32 mm

E 20 cm

Q42. Which of the following values is the mean of the five fractions?

$$\left(\frac{1}{2}\right)^2 \qquad 0.25 \qquad \frac{1}{4} \qquad 75\% \qquad \frac{3}{8}$$

A $\left(\frac{1}{2}\right)^2$

B 0.25

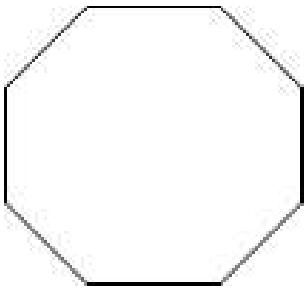

C $\frac{1}{4}$

D 75%

E $\frac{3}{8}$

Q43. Sasha has an octagon.

Without folding the paper, which one shape can she **NOT** make with one cut?

A triangle

B hexagon

C trapezium

D pentagon

E kite

Q44. Mr Sett sells his collection of second-hand books for 25% less than the price he paid for them.

If Mr Sett receives £96 for the second-hand books, how much did he originally pay for them?

A £130

B £132

C £128

D £124

E £120

Q45. An empty sack weighs 600 g.

The sack is filled with 12 beach balls.

The sack filled with beach balls weighs 3 kg.

What is the weight of one beach ball?

A 150 g

B 200 g

C 220 g

D 250 g

E 260 g

Q46. A sequence is made from patterns of crosses.

Pattern 1

Pattern 2

Pattern 3

How many crosses will be in Pattern 10?

A 32

B 30

C 28

D 26

E 24

Q47. Let x be a whole number.

If the expressions $3x > 123$ and $4x < 184$ are true, what is the difference between the smallest and largest possible values of x?

A 4

B 3

C 2

D 1

E 0

Q48. 20 can be written as a product of prime numbers.

For example, $2 \times 2 \times 5 = 2^2 \times 5 = 20$

What is 500 as a product of prime numbers?

A 4×5^3

B $2^4 \times 5^2$

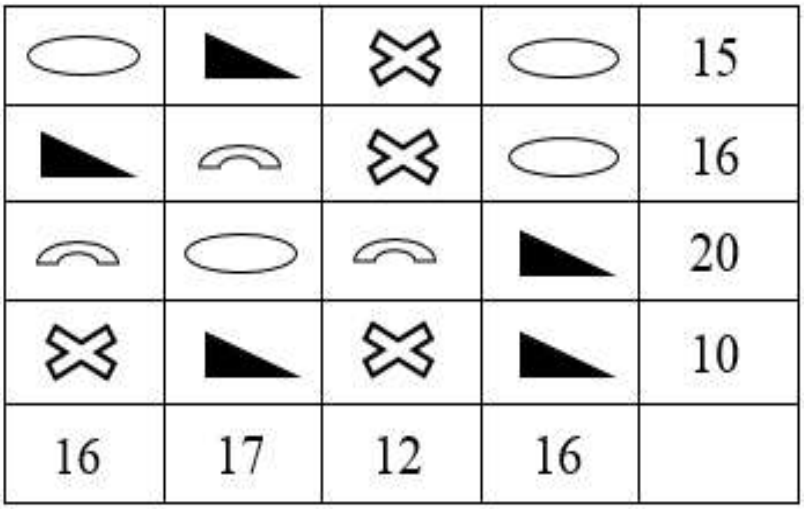

C $2^4 \times 5$

D $2^2 \times 5^3$

E 2×5^3

Q49. Each shape represents a different single-digit number.

The total value of each row and column is given.

What is the value of the oval?

A 2

B 3

C 4

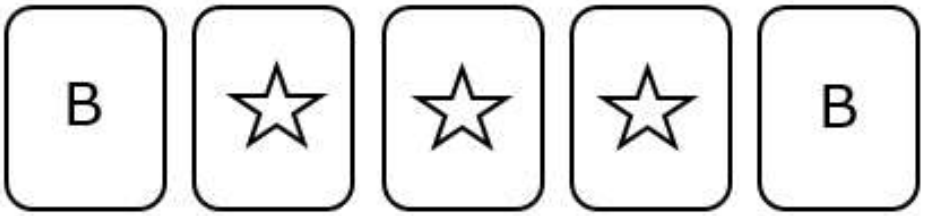

D 5

E 6

Q50. Best Bites is designing a banner with 5 sections.

The banner will contain 2 Bs and 3 stars, each in a different section.

One possible design is shown.

How many different designs, including the one shown, are possible?

A 10

B 12

C 14

D 16

E 20

SELECTIVE ELIGIBILITY TEST (S.E.T.)

PRACTICE TEST 16

English

50 minutes

Instructions:

- This test contains 34 questions, which are split over 4 sections
- You are advised to spend the time suggested below on each section:
  Section A: Spelling – 5 minutes
  Section B: Text 1 – 25 minutes
  Section C: Text 2 – 10 minutes
  Section D: Comparison of Texts 1 & 2 – 10 minutes
- These timings are just recommendations – you are allowed to spend as much of the given time as you like on each section, and you may return to questions at any time during the test.
- Read the instructions for each section carefully.
- Mark all your responses on the separate answer sheet provided.

Your time will start when you turn over the page.

Section A

Which of these is the correct spelling?

1.
- **A** Secratary
- **B** Secraty
- **C** Secratey
- **D** Secretary
- **E** Secritery

2.
- **A** Wingeing
- **B** Winghing
- **C** Winnging
- **D** Whinnging
- **E** Whingeing

3.
- **A** Mediocre
- **B** Medeeocre
- **C** Meediocer
- **D** Mediocer
- **E** Meediocre

4.
- **A** Descimle
- **B** Decimal
- **C** Desimel
- **D** Descimal
- **E** Decimle

5.

A Furtile

B Fertyle

C Fertile

D Furtyle

E Ferrtile

6.

A Sparkley

B Sparkely

C Sparkelly

D Sparrkly

E Sparkly

Section B

The extract below is from *The Trophy Child,* by Paula Daly.

Read the extract carefully and then answer the questions that follow.

The girls' changing room smelled heavily of sweat, mud and a sickly-sweet deodorant that was beginning to irritate the back of her throat. She didn't have a lot of enthusiasm for hockey. Not a lot of enthusiasm for school, full stop, now that she was on a probationary period. It was to be a period of indeterminate length, during which her behaviour would be monitored by a variety of well-meaning professionals.

Verity Bloom: not quite a lost cause.

Not yet.

Everyone was doing their utmost to prevent a deterioration in her performance – not least the staff of Reid's Grammar, because, up until recently, she had always been such a promising student.

'We have so much invested in her,' the head teacher had told her father. 'We want her to realise her full potential, and it would be a travesty if a girl such as Verity was not given the proper support at what is clearly a very difficult time. A difficult time for all of you, in fact.'

They had left that meeting with her father stooped, a man beaten down by life, a man who was just so tired of it all. 'You'll do as they say?' he'd asked, and Verity had shrugged her response in the way only a teenager can. 'It's this, or you're out of here,' he said.

'Would that be such a bad thing? Maybe this isn't such a great place after all.'

Her father had sighed hard.

'It costs eighteen thousand pounds a year. In total, I've spent over seventy-five thousand pounds on your education here, just so you can come out with nothing . . . Christ, Verity.'

'I wouldn't come out with *nothing*,' she'd argued. 'I could do my GCSEs elsewhere.'

And he had held her gaze for such a long time, a deep, deep sadness forming in his eyes, that, finally, she'd said, 'Okay.'

She'd said, 'Okay. I'll do it.'

Three weeks into the autumn term and the long summer break was fast becoming a distant memory. She removed her boots, her shin pads, her underwear, and made her way to the showers. She let the water run over her shoulders, the skin of her back; the temperature was kept just below optimal heat to prevent the girls from dawdling, to

make certain they would be in time for the next lesson. Pointless, really. Sixteen-year-old girls were never so comfortable with their new bodies that they lingered in the communal showers. A few would try to get out of showering altogether. It had been that way since they had started secondary school, back in Year 7. But the PE staff had got wise to their excuses early on and now they documented them on a spreadsheet. Exemption from showering was not permitted two weeks in a row.

The head of girls' PE put her head around the tiled wall and scanned the assorted faces before her until she found Verity. 'Where do you need to be next period?' she asked.

'IT.'

'You can be a few minutes late. Get out now and get dry. Come and see me when you're dressed. I'll be in my room.'

Verity nodded, exiting the showers to a flurry of whispers and stifled giggles.

Alison Decker was a serious-looking woman. Verity supposed you had to be to run a PE department. Every day, she wore black Ronhill running pants and a school-issue sweatshirt with her name emblazoned across the back, as though she were on a netball tour. (She did use to play for Cumbria.)

Verity liked her. She was straightforward; you knew where you were with her. Not like the vague, flaky dance teacher, whom the girls approached when they had a problem. Or the blond-bobbed, over-styled woman they hired to coach tennis during the summer term. That woman had a sneaky way about her, and the students always felt as though she was listening in on their conversations. Alison Decker was too busy to eavesdrop. And, frankly, she couldn't care less what the girls were saying. They were students. They were meant to be organised, disciplined and exercised. She did not want to know about their personal lives.

Which made her the perfect choice to administer the test.

Verity dressed quickly, keeping her head low. She was well aware that she was being watched by the others. They were pretending to talk among themselves, pretending they weren't looking her way. An affected girl she shared a lab bench with in physics was showing pictures of baby sloths on her iPhone; her friends cooed excessively, made long, loud *awwwwww* sounds, as though they were infants once again and a puppy had been led into class.

Verity packed up her things and headed out to the main corridor. The bell was yet to sound, so it was empty save for a teacher at the far end. He was attaching a sheet of A4 to the music notice board. Once it was in place, he stood back, hands behind his head, to survey the rest of the announcements.

Reid's Grammar was no longer a grammar school but had kept the title when it switched to independent status in 1977. It was positioned on the eastern shore of Windermere,

at Countiesmeet, where the old counties of Lancashire over the sands and Westmorland used to join.

7. Which of the following words from lines 1–2 are nouns?

Select all that are correct.

A Room

B Mud

C Irritate

D Back

E Throat

8. Select the **TWO** words that are synonyms of 'indeterminate' in line 4.

A Lengthy

B Unspecified

C Deprived

D Undetermined

E Shortened

9. Select the **TWO** most accurate words to describe Verity's father.

A Feisty

B Assured

C Enraged

D Fed-up

E Exhausted

10. Look carefully at lines 1–10. Which of these statements is NOT correct?

Select **one** answer.

A Verity does not like the smell of the girls' changing room.

B Verity is not enjoying school.

C The school is trying to get Verity back on track.

D Verity is at risk of being expelled from her school.

E Verity's school has been concerned about her since Year 7.

11. What was the primary reason that Verity did not have long showers after PE?

Select the **most accurate** explanation.

A The water is not warm enough to take long showers.

B She does not want to risk being late for the next lesson.

C She feels self-conscious about her body.

D She finds the water too hot.

E She is never particularly sweaty.

12. Which of the following statements about Reid's Grammar are true?

Select all that are correct.

A It is a secondary school.

B It is a private school.

C It is a grammar school.

D It indicates the end of lessons with a bell.

E It has had the same name for decades.

13. We can deduce that Verity is in Year 11. Which of the following lines can be used together to deduce this?

Select all that are correct.

A Line 28

B Lines 32–33

C Line 24

D Lines 34–35

E Lines 11–12

14. Select the **TWO** possible months this extract could be set in.

A January

B April

C September

D December

E October

15. Select the **TWO** most accurate words to describe Verity.

A Callous

B Obnoxious

C Troubled

D Quiet

E Popular

16. Look carefully at lines 11–14. What can we infer from these lines?

Select the **most accurate** explanation.

A Verity is making life difficult for her entire family.

B Verity does not realise how clever she is.

C Verity is not getting any support from her family.

D Verity is underachieving for no particular reason.

E Verity's family is going through a hard time.

17. What is meant by 'new bodies' in line 33?

Select the **most accurate** explanation.

A Bodies that have had plastic surgery

B Bodies that have been through the changes of puberty

C Bodies that have recently been washed

D Bodies that are in good condition due to exercise

E Bodies without any clothes on

18. Select the **TWO** most accurate words to describe Alison Decker.

A Predictable

B Friendly

C Efficient

D Eager

E Strange

19. Select the **TWO** most accurate words to describe the dance teacher.

A Petty

B Approachable

C Delicate

D Unconventional

E Misguided

20. Look carefully at lines 48–55. Which of these statements is NOT correct?

Select **one** answer.

A The tennis coach had very short hair.

B The tennis coach only worked at the school for part of the year.

C Verity and her peers did not trust the tennis coach.

D The head of PE was not interested in chatting to the pupils.

E Alison Decker took her job seriously.

21. What does the word 'affected' (line 59) tell us about the girl with the iPhone?

Pick the **most accurate** explanation.

A She was easily influenced by her friends.

B She was easily affected by sad news.

C She was mentally disturbed.

D She was superficial and insincere.

E She was popular and entertaining.

22. Look carefully at lines 59–62. Which of the following language techniques are used in these lines?

Select all that are correct.

A Alliteration

B Onomatopoeia

C Personification

D A metaphor

E A simile

23. Select the **TWO** words from lines 48–55 that are antonyms.

A Sneaky

B Frankly

C Straightforward

D Disciplined

E Organised

Section C

The extract below is from *Love Frankie,* by Jacqueline Wilson.

Read the extract carefully and then answer the questions that follow.

Year Eight was a bit of a nightmare because Dad left and then Mum's eyes started playing up and she eventually got the diagnosis of MS. Dad came back for a bit then, feeling guilty. Zara and Rowena hoped he'd come back for good. I don't know what Mum thought. I *knew* he'd clear off again — and he did.

So I wasn't in a larking-about-with-the-boys mood for most of last year. I didn't want to hang out with anyone, so every lunch hour I went to the library. That's how I got to know Mr White, the librarian. I talked to Ivneet too, a girl in my class who goes to the library a lot. She's not very popular because she's terribly clever and always comes top. Ivneet doesn't seem to care what people think.

'Ivneet is a Sikh name. It means Brave,' she told me. She grinned. 'It's a good name, eh? I like the idea that I'm brave.'

I looked up the meaning of the name Frankie. It just meant someone from France, though the Urban Dictionary said all Frankies were dead sarcastic.

I suppose I can be sometimes, especially with girly girls like my sister. When I started Year Nine I tried to get back in with my old boy gang, but they didn't seem to want me hanging around with them any more. They were suddenly interested in all the other girls, rating them in the most offensive way, saying stuff that sometimes made me laugh at them, sometimes made me rage at their stupidity. The girls had changed too, flirting and giggling, fussing with their hair and wearing make-up to school and hitching their skirts up.

But Sally Mac wasn't like that. She acted like she didn't give a stuff about any of the boys in our class — or Years Ten or Eleven, though most of the older guys really fancied her. I quite liked her for that. We weren't *friends*, but sometimes we came across each other on the stairs or in the corridors and nodded. We were in the same netball team and often passed the ball to each other and high-fived if either of us scored a goal.

But then, the week before half-term, Mum came to meet me from school a bit early. I had a boring dental appointment and she wanted to discuss the pros and cons of me having a brace. I very much hoped the cons would outweigh the pros.

24. Select the **TWO** ages that Frankie could have been when her dad left for the first time.

A Eleven

B Twelve

C Thirteen

D Fourteen

E Fifteen

25. Look carefully at line 5. What does this line tell us about Frankie?

Select the **most accurate** explanation.

A In Year Eight, Frankie found the boys annoying.

B In Year Eight, Frankie found out that boys put her in a bad mood.

C For most of Year Eight, Frankie enjoyed the company of girls.

D Frankie used to enjoy playing sport with the boys.

E For most of Year Eight, Frankie was not up for having a laugh with boys.

26. How do you think Frankie felt when she found out the meaning of her name?

Select the **most accurate** explanation.

A Amused that it did not have a more interesting meaning

B Angry that people would think she was sarcastic

C Disappointed that it did not have a meaning she could be proud of

D Nothing: she did not care what her name meant anyway

E Confused: she thought all names had an interesting meaning

27. Select the **TWO** words that Frankie would have been most likely to use to describe the boys she was with in Year Nine.

A Rude

B Boring

C Flirty

D Ridiculous

E Aggressive

28. Look carefully at lines 21–26. Which of these is NOT correct?

Select **one** answer.

A Sally Mac was not a flirt.

B Sally and Frankie were acquaintances.

C Frankie congratulated Sally verbally if she scored a goal in netball.

D Frankie was a team player in netball.

E Sally came across as though she was not interested in boys.

29. 'I very much hoped the cons would outweigh the pros.' (line 29)

What does this tell us about Frankie?

Select the **most accurate** explanation.

A She wanted a brace to straighten her teeth.

B She did not want to get a brace.

C She was a pessimist.

D She did not want her mum to have the expense of getting her a brace.

E Frankie intended to refuse to have a brace.

30. Who does Frankie seem to admire?

Select all that are correct.

A Her dad

B Her sister

C Ivneet

D Sally

E Her 'old boy gang'

Section D

Answer the following questions using BOTH extracts.

31. Think about Verity and Frankie. From the texts, which of these statements are true about BOTH?

Select all that are correct.

A They are both still at school.

B They are both female.

C They are both fairly solitary figures at school.

D They both have siblings.

E They are both the narrators of the extract they are in.

32. Think about the differences between Verity and Frankie. Which of the following statements is NOT true?

Select **one** answer.

A Verity does not seem to enjoy sport, but Frankie does.

B Verity appears to care about her father, but Frankie is dismissive of hers.

C Frankie has an unsettled homelife, but we know Verity's homelife is settled.

D Boys have had an impact on Frankie at school, but there is no suggestion that boys have had an impact on Verity.

E Frankie is younger than Verity.

33. Select the **TWO** themes that are common to BOTH extracts.

A Immortality

B Heroism

C Motherhood

D Isolation

E Growing up

34. Which of the following statements are true about BOTH extracts?

Select all that are correct.

A They use direct speech.

B They have a first-person narrator.

C They contain similes.

D They contain at least one idiom.

E They use personification.

11+ S.E.T. Practice Test 16 – English – Answers

Marking Guidance

For each question, the maximum number of marks available is shown.

Where questions require multiple answers and use the rubric, '**Select all that are correct**', negative marking should also be applied, whereby 1 mark is deducted for each incorrect answer selected down to 0 marks (note that the number of marks per question cannot be negative).

For example:

If a question is worth 2 marks and requires options A, B and C to be selected:

Award 2 marks for A, B **and** C selected or 1 mark for any two correct answers selected.

Award 1 mark for A, B, C **and** D **or** E selected (2 marks – 1 incorrect = 1 mark).

Award 0 marks for A, B, C, D **and** E selected (2 marks – 2 incorrect = 0 marks).

Award 0 marks for A, B and E selected or equivalent (1 mark – 1 incorrect = 0 marks).

1.	D	[1 mark]
2.	E	[1 mark]
3.	A	[1 mark]
4.	B	[1 mark]
5.	C	[1 mark]
6.	E	[1 mark]
7.	A, B, D, E	[3 marks]
8.	B, D (both answers must be correct)	[1 mark]
9.	D, E (both answers must be correct)	[1 mark]
10.	E	[1 mark]
11.	C	[1 mark]
12.	A, B, D, E	[3 marks]
13.	B, C	[2 marks]
14.	C, E (both answers must be correct)	[1 mark]
15.	C, D (both answers must be correct)	[1 mark]
16.	E	[1 mark]
17.	B	[1 mark]
18.	A, C (both answers must be correct)	[1 mark]
19.	B, D (both answers must be correct)	[1 mark]

20.	A	[1 mark]
21.	D	[1 mark]
22.	A, B, E	[2 marks]
23.	A, C (both answers must be correct)	[1 mark]
24.	B, C (both answers must be correct)	[1 mark]
25.	E	[1 mark]
26.	C	[1 mark]
27.	A, D (both answers must be correct)	[1 mark]
28.	C	[1 mark]
29.	B	[1 mark]
30.	C, D	[2 marks]
31.	A, B, C	[2 marks]
32.	C	[1 mark]
33.	D, E (both answers must be correct)	[1 mark]
34.	A, D	[2 marks]

Total: **43 marks**
